Preface

About this Guide

This document provides information about the services and functions available with our Mobile Android App (referred to simply as "the app" in the remainder of this document) and how to access them.

Audience

This guide is intended for the people who want to use their Android smart phone as an advisor of various natural remedies which include the following features basically.

- Know information about the causes and symptoms of several diseases,
- Access various natural remedies for several diseases,
- Immediate first aid for sudden accidents,
- Instructions on healthy routine,
- Few healthy recipes,
- Nutrition Details,
- Speak to us (the makers) directly and clarify their doubts

This app can be used by people of all age groups, with respect to the diseases for which they want to know the remedies about or any of the above mentioned features.

Typographic Conventions

Unless otherwise noted, this document uses the following typographic conventions to help you locate and identify the information.

Bold Text identifies new names, emphasis and titles.

Bold Italic Text identifies button names and other items that you can click or touch in the Graphical user interface or press on a phone's keyboard.

Hardware and Software Requirements

You must use specific minimum hardware and software to use this natural health app.

For best experience, you should use the recommended software and hardware.

As it is primarily a mobile app, we recommend that you update your device's operating system.

Device	Browser	Current Version	Upgrade Link
Android	NA	4.4	http://www.android.com/versions/kit-kat-4-4

Note:

This app requires your Android device to be connected to the Internet. If you have never set up the Wi-Fi connection for your device, refer to the documentation for your Android device.

Getting Started

Opening the A-Z Natural Remedies app

To open the natural health care app

Locate the natural health care app (fig.a) on your smart phone or tablet and tap it to open.

fig.a.

Signing up for the first time (if you are not a user)

Once you have the application downloaded on your android device, you are ready to sign up and become a user.

To sign in for the first time:

1. On your mobile device, launch the application. When you click on your app the fig.b will be displayed.

fig.b.

2. Initially a screen appears as shown in the fig.1.

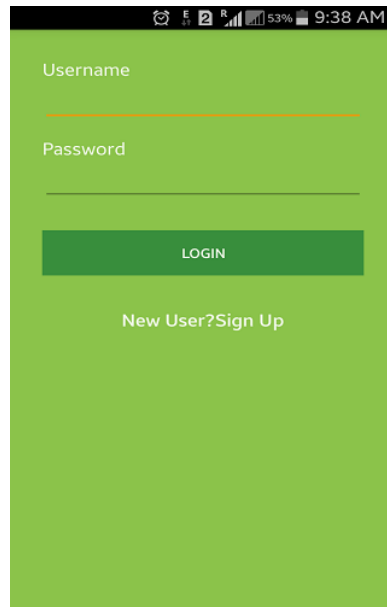

fig.1

3. Since you are a new user, click on *New User? Sign Up* button as in fig.1.1

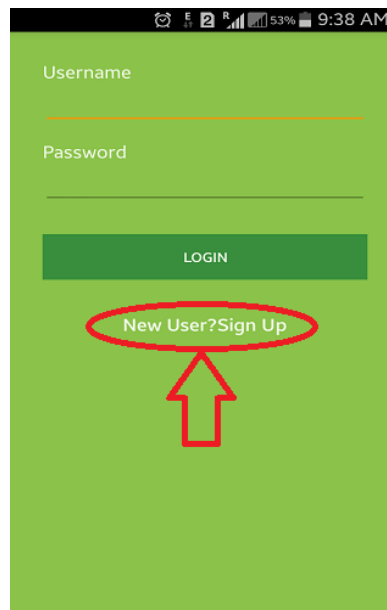

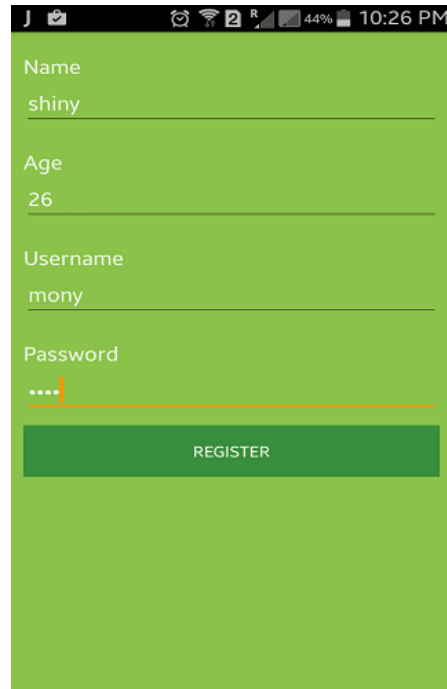

fig.1.1

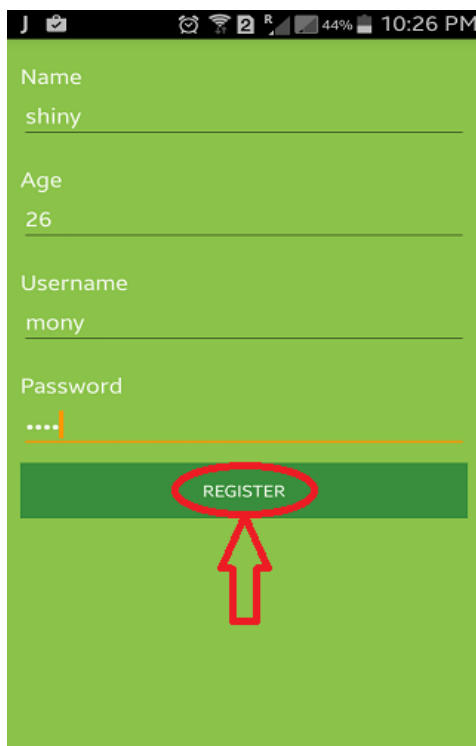

4. Then you will be directed to a new screen asking you to fill your details one by one which include your **Name, Age, Username and Password**. To display the keyboard, simply tap an entry field or use the device keyboard as in fig.1.2

A mobile application registration screen with a green background. It features four input fields: 'Name' with the value 'shiny', 'Age' with the value '26', 'Username' with the value 'mony', and 'Password' with masked characters '....'. Below the fields is a green button labeled 'REGISTER'. The status bar at the top shows the time as 10:26 PM and battery at 44%.

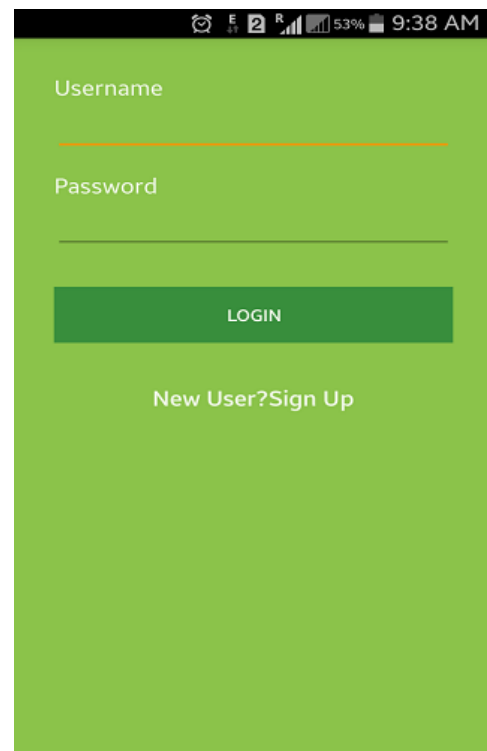

fig.1.2

5. Then click on **Register** button as in fig.1.3
6. You will be automatically redirected to the login page (fig.1.4) wherein you can login based on the instructions given later.

A mobile application registration screen, identical to fig.1.2, but with a red circle around the 'REGISTER' button and a red arrow pointing to it. The status bar at the top shows the time as 10:26 PM and battery at 44%.

fig.1.3

A mobile application login screen with a green background. It features two input fields: 'Username' and 'Password'. Below the fields is a green button labeled 'LOGIN'. At the bottom, there is a link that says 'New User? Sign Up'. The status bar at the top shows the time as 9:38 AM and battery at 53%.

fig.1.4

Failed Sign in attempts

You must fill all the details. Otherwise an error will be shown as shown in the fig.1.5

fig.1.5

Logging in for the first time (after you just signed up)

Once you have downloaded the application and have your user ID and password, you are now ready to sign in.

1. On your mobile device, launch the application.
2. To display the keyboard, simply tap an entry field or use the device keyboard (fig.1.6).
3. Enter a valid Username and password and tap **LOGIN** as in fig1.7

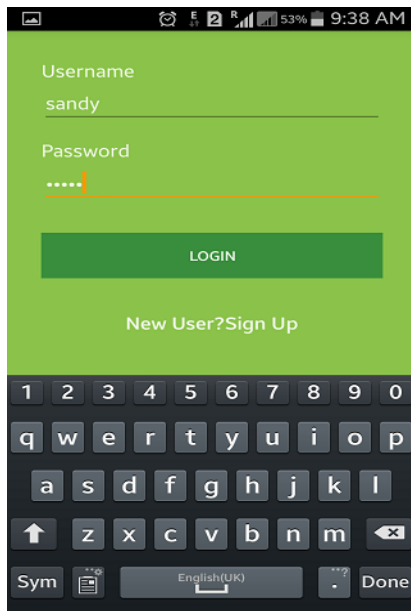

fig.1.6

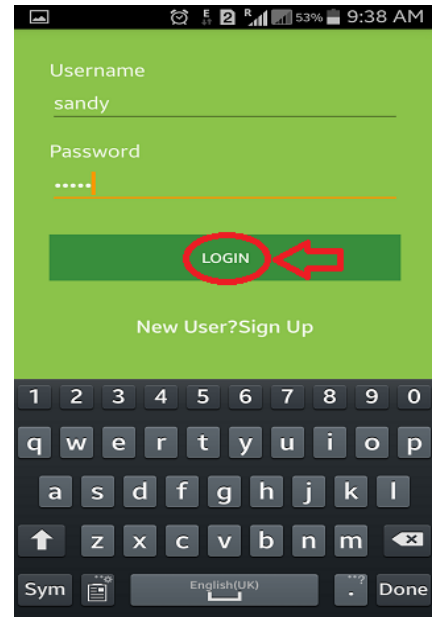

fig.1.7

4. If the entry is successful, a message appears on the screen **SUCCESSFULLY LOGGED IN**.
5. In fraction of seconds you will be directed to new scrolling screen as shown in the fig.1.8 and fig 1.9

Note:

Your username and password are case-sensitive. Caps lock is off by default. After your first sign in, your Android device remembers your username.

fig.1.8

fig.1.9

Failed Login attempts

If your entry was unsuccessful, it means you might have entered invalid username or password or did not fill one of those fields. You must give valid username and password. Login failed msg will be popped up as in fig.1.10

fig.1.10

Logging off

On the main screen shown below, we have an option to the top right of the screen. Tap on it to log out as in fig.1.11

fig.1.11

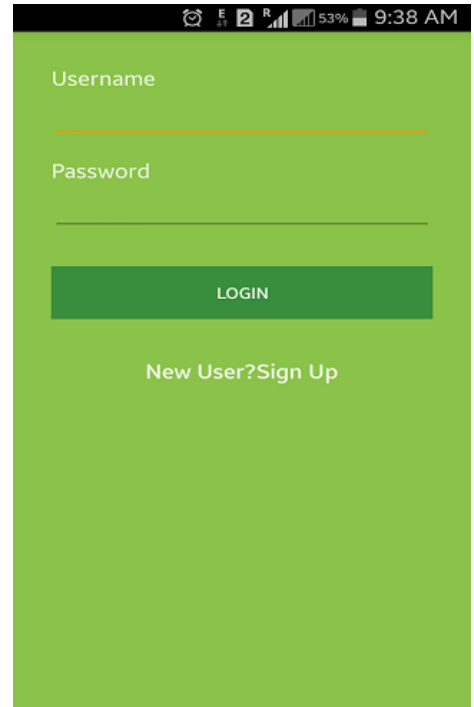

fig.1.12

On logging out, you will automatically be directed to the login page (fig.1.12)

You can also log out by pressing the back button on your android device thereby you will come out of the app completely.

Managing through Various Phases

Once you are on the main screen, you can select any of the options as per your requirements, each of them having mentioned pictographically.

Diseases and Cure

- For details about diseases and their cure, tap on the **DISEASES AND CURE** button as shown in fig.2

fig. 2

- You will be directed to a new scrolling screen which has nearly 17 buttons each certifying a unique organ or a unique type of ailment as shown in the fig.2.1 and fig.2.2
- You can tap on the one that you wish to search for.

fig.2.1

fig.2.2

On tapping on **Eye Care** (fig.2.3), you will be directed to a new screen shown below in fig.2.4.

fig.2.3

fig.2.4

Click on any organ that you wish to see. A new screen with a list of diseases related to that organ will be displayed similarly.

In all the lists of diseases shown above, you can select any one of the diseases, tap on it and you will be directed to a new screen each time. A sample is shown below.

In the display of diseases list, a tap on any disease will display a new screen containing information such as causes, symptoms, home remedies, precautions with necessary images related to that disease.

For example, click on **Eye Care** (fig.2.5), you will be directed to a new screen shown below fig.2.6.

fig.2.5

fig.2.6

A click on **Cataracts** disease (fig.2.7) will display a new scrolling screen with the causes, symptoms, home remedies and precautions as in fig.2.8 and fig.2.9.
